Appomattox should recall with pride that our county library system only a gift from the Hon. E. Bruce, distinguished member of Mr. Bruce resided for a time in Charlotte County, and in that period served in the Virginia House of Delegates. And also, in that period, he contributed to the development of many public libraries in Southside Virginia. He died in the Maryland legislature and then went into the service of the U. S. State Department. He has held, with honor, many ambassadorships: Bonn, Rome and now London, currently the seat of a left a rich memory in the hearts of Virginia, and during National Library Week, Appomattox should do well to remember its citizen.

The best way for a reporter to learn things, is to ask questions. Larry Watson who was the son of Rose Bowser. (Rose was an extremely well-governed town in Route 24, surrounded by Buckingham County Line. Although guess, I would put the date at 15). I got my answer. L. H. Watson said that "Father" was Mrs. L. H. Watson had T. C. Harvey down the title, but now we just do and we may have to call him for election. We must have to while we are on this subject the question of why the name of Evergreen gives us. There are so very many lovely old-time dendichaes. LETTER TO EDITOR

Pamplin, Va., April 16

Editor, Times-Virginian:

I thought your extra edition of the Times-Virginian was intensely interesting on April the 6, 1961, giving historical facts surrounding and involving Gen. Lee's surrender on April 9, 1865 at Appomattox Court House, and I wish to thank you for it. I expect to keep my copy. I especially liked the centerspread roads map on pages 6 and 7, but what I liked best of all was the tenor of your article entitled "Many Books Record Retreat of Lee on pages 1 and 12, where you bring us down to our present day, and how you brought out what should be the vital concern of all, "To these alleged Christian times" and what we can do to halt the on-laugh of killing, blood, wars, and rumors of wars. Gen. Grant said "Let us have peace." Gen. Lee gave us a prescription for peace for all generations when he said, "Return to your homes, educate your children, and become good citizens to live in a peaceful world."

All this is good but I think your admonition and panacea for lasting peace best of all, for present day world's condition is, "Let us find a place, in our observance for a remembrance of the Creator of us all. When God sent His son into the world, he did not send him as a warrior to kill, but as the Prince of Peace. Did not the Angels sing Tidings of Peace on Earth, to Men Good Will?

I heartily agree with you as all Christians will, that it is in returning to God, and giving Him first place on our lives, that makes for peace, and will make Appomattox Court House truly a shrine of a Gentleman's Peace.

Oh that we had more that world cry out for a remembrance of the true and living God, the only Creator, for then and only then will we have the peace, the lasting peace, which passeth all understanding, which only can keep our hearts and minds, through Christ Jesus." Philippians 4:7.

Feed - Grain Program

One of the major objectives of the 1961 feed grain bill is to cut down on the cost of storing the huge surplus of corn and grain sorghums.

Jim Smith, Co. Agent says that the program aims at saving tax payers as much as $500 million in storage costs.

This savings would be made possible by the program's plan to use surplus corn and other feed grains now in government storage to help farmers cut 1961 production to an amount more in line with needs. Cooperating farmers will divert 20 to 40 percent of their 1959-60 acreage of corn and grain sorghum to soil-conserving uses. They will be paid for this cut in certificates for surplus grain, which the Government will sell for them if they like.

Smith quotes Secretary of Agriculture Orville L. Freeman who said that the feed grain porgram will:

1. Help increase farm income.
2. Help assure the consumer a continuation of fair and stable prices for meat, poultry, and dairy products.
3. Reduce ultimate cost to taxpayers by about $500 million.
4. Prevent further buildup of the feed grain surplus and possibly reduce it.

Secretary Freeman said recently: "Every livestock, dairy, and poultry producer has a stake in this program. They cannot ignore the chaotic effects that continued and prolonged excess feed grain output would have on their production and their prices. Both producers and consumers have an interest in supply and price stability."

House passes supplemental appropriations bill.

Club District Meeting Held

DISTRICT MEETING DEMONSTRATION CLUBS

The Virginia Federation of Home Demonstration Clubs, District III meeting was held at the National Guard Armory at Chatham on April 13. Leslie H. Giles, IFYE delegate to India was guest speaker. Appomattox County Home Demonstration Clubs were 2nd from top with Pennies for Friendship. The amount given was $31.23.

Appomattox County will be host for the District III meeting in 1962.

Miss Frances Hatcher, the Home Agent, and Mrs. John L. Harrison, Mrs. Wesley Martin, Miss Kate Davidson ,Mrs. R. C. Moore and Miss Cassie Baldwin attended the meeting. The nominating committee named Mrs. R. K. Martin as District III vice-president.

ASC INFORMATION FOR FARMERS

Up to half of the payment to be earned on a farm under the 1961 feed grain program will be available as soon as the producer sign up under the program, W. D. Hix, III Chairman, County Agricultral Stabilization and Conservation Committee, said today. He pointed out that this program provides should be of substantial benefit to growers who can use some extra, ready cash during the spring planting season.

The feed grain program offers payments to corn and grain sorghum producers who diver; acreage from the 1961 production of these crops to a soil-conserving use. While the program is voluntary farmers who grow corn and grain sorghum must cooperate by diverting at least a minimum acreage in order to be eligible for price support on the normal production of their 1961 crop corn and grain sorghum acreage and also on any of the other feed grains- barley, oats, and rye.

Appomattox county has two county average rates of payment per acre for corn and two for grain sorghum. One rate is based on 50 per cent, and the other on 60 per cent, of the county normal yield per acre times the county support rate. Farm payment rates vary according to the farm's productivity in relation to the county average productivity and the number of acres diverted.

The minium acreage for diversion from either corn or grain sorghum or both will be figured from the "farm base" - determined from the total acreage on the farm used in producing these two crops in 19 59 and 1960. The minimum reduction is 20 per cent of the base and the maximum depends on the size of the farm base.

LIBRARY WEEK

"For a Richer, Fuller Life—Read" is the slogan for National Library Week. The Appomattox County Library urges the citizens of the county to make use of the facilities which are available to them at their library.

A "Friends of the Library" committee is being organized with a representative from each civic club on the committee. This group hopes to help in creating more interest in the library among adults of the community.

Various activities are being participated in throughout the Appomattox County Elementary Schools in observance of National Library Week. Bulletin boards and other displays are being used, along with book reviews, with special emphasis on the Newberry Medal Books.

Bookmarks have been distributed which list both Newberry and Caldecott winners.

Fifth, sixth and seventh grade pupils in the county elementary schools have written papers on their favorite books.

People who have nothing important to do will find time to attend to a number of unimportant things.

Young Club Promises Good Season For AHS

The Appomattox High School baseball team has opened its season by losing its first two games, by scores of 2 to 0 to Amherst, and 6 to 2 to Rustburg. Then on Tuesday the team won over New London by a score of 12 to 1, with James Whitehead pitching a one hitter, Jimmy Torrence pitched the first two games and against Amherst he lost by a close score of 2 to 0.

The boys making up this year's team are: seniors: Donald Baldwin, E. B. Drinkard, and Buddy Wilkins; Juniors, Barry Beal, Dicky Fuller, Willard Johnson, Tom Maxwell, and Austin Pankey; sophomores: Buddy Wilcox, and James Whitehead; freshman: Jimmy Burke, Billy A. Burke, John Goode, G. H. Jamerson, Doug Mitchell, Mike Mitchell, Ronald Millner, Jimmy Torrence, Joe Terry.

This year's team is very young, but the players have a lot of desire and want to play, so they should have a winning season.

Last year's record was 8 wins and 6 losses. It is believed that this year's record will be better.

Longest Bridge - Tunnel

Norfolk Va.--Construction on the worlds longest bridge and tunnel system is moving into high gear with the advent of spring weather, a spokesman for the CShesapeake Bay bridge and tunnel Aoject reported today.

Work is proceeding rapidly on the first two of four man-made islands that will anchor the two tunnels in the 17½-mile long roadway across the mouth of Chesapeake Bay.

A marine pile driver last week started driving the giant concrete piles that will support the roadway between the islands and the shore.

At the same time, the first two of 37 tunnel sections - huge steel cylinders 34 feet in diameter and 296½ feet long - were launched in Orange, Texas, and readied for a 1,700 mile sea journey.

Construction is now 2.2% complete on the three-year, $200,000,000 undertaking, according to Percy Michener, project manager, Sverdrup and Parcel, consulting engineers on the project.
